New Sign-Up Form

Overview:

A social media platform is launching a new sign-up form to allow users to create an account by entering their name, phone number, email, and password. Additionally, there will be a section for existing users to sign in. The design must be responsive, ensuring an optimal user experience on both desktop and mobile views. The designer must use a **900px** breakpoint for responsiveness, adapting the layout for smaller screens.

Mission:

As a Web Designer, your task is to design a clean and modern sign-up form for new users to create an account. The form should include fields for the user's name, phone, email, and password. Additionally, there should be a section for returning users to log in. The design should be responsive, adapting to desktop and mobile views with a breakpoint set at **900px**. You will use HTML and CSS to implement this design.

Useful Hints:

- Use your knowledge of HTML and CSS to create a responsive design.
- Ensure the layout adjusts for mobile screens (**900px breakpoint**).
- Colors to use:
 - Right Side Background Color: A gradient using **#ff4b2b** and **#ff416c** (for an eye-catching and modern look).
 - Button Background Color: **#ff4b2b** (for a vibrant call-to-action).
- Make the form easy to navigate for both new and existing users.

Responsive Design Guidelines:

- **For desktop views (above 900px)**, the form and layout should be arranged horizontally with two sections: one for new users and one for returning users.
- **For mobile views (below 900px)**, stack the sections vertically for easy mobile navigation.

Expected Output:

- A clean and responsive sign-up form for new users, including fields for **name, phone, email, and password**.
- Responsive design: The layout should adapt to both **desktop (above 900px) and mobile (below 900px) views**.
- The design must be implemented using only HTML and CSS, without relying on image files.

Mobile View:

The image shows a mobile app interface with a white background and a red header bar at the top. The main content is divided into two sections. The top section has a red-to-pink gradient background and contains the text "Welcome Back!" in large white font, followed by "To keep connected with us please login with your personal info" in smaller white font. Below this is a white rounded rectangular button with the text "SIGN IN" in red. The bottom section has a white background and contains the text "Create Account" in large black font. Below this are four light gray input fields with the labels "Name", "Phone", "Email", and "Password" in gray text. At the bottom of this section is a red rounded rectangular button with the text "SIGN UP" in white. The entire interface is framed by a light gray border.
